BIO

Peter Schemmer was trained in General, Visceral and Transplant Surgery at the University of Heidelberg, Germany as well as at several other renowned institutions in the USA, Canada, Switzerland and Asia. From 2013-2016 he was Vice Chairman of the Dept. of General, Visceral and Transplant Surgery in Heidelberg. In November 2016 he was appointed Chairman of General, Visceral and Transplant Surgery, Surgical University Clinic, Medical University of Graz, Austria.

Professor Schemmer is an academic surgeon and clinical scientist who has devoted himself to both surgical oncology and solid organ transplantation. While he performs general, endocrine, upper and lower GI surgery his special interest is both liver transplantation and hepato-pancreato-biliary surgery including minimal invasive approaches. To date he has performed more than 6,000, mostly highly complex, surgical operations.

His h-index of 54 reflects his scholarly success with more than 640 publications cited more than 11600 times. He is serving as associated editor, guest editor, and board member of numerous scientific journals, is (honorary) member of various national and international scientific societies and serves as reviewer of projects applying for national and international third-party funds. He was honored with prestigious awards and degrees, i.e. Dr. h. c. (Vilnius University, Lithuania), Prof. hon. (Zhejiang University, Huzhou Hospital, China) and Prof. hon. (Dalian Medical University, China).
